

228W RGBW LED professional moving head wash fixture with motorized zoom.

The Eliminator Lighting Stryker Wash is a 228W professional moving head wash featuring nineteen 12W 4-IN-1 (RGBW) LEDs, and motorized zoom (6 to 50-degrees) that allows the versatility to use this fixture as a wide wash or tight beam. Along with a massive palette of colors to choose from, the Stryker Wash also has an independent linear white color temperature control channel that can change from 3200K to 10,000K. This allows users to color correct the illumination of different skin tones of people on stage.

The Stryker Wash has motorized focus, variable strobe speeds, a 3-zone control mode with macros, and a large color display that makes navigation of the fixture's menu system for setup and DMX addressing very easy. The fixture has fast, precise pan and tilt movements, along with fine pan/tilt, allowing for precision performance.

This fixture offers a variety of control modes, including DMX, auto and sound active. Connections include locking power in and out, and 3-pin DMX data in and out. Its compact size, light weight, power and features make the Stryker Beam ideal for venue installations, events and for mobile productions.

LIGHT SOURCE:

- 19x 12W RGBW (4-IN-1) LEDs
- 50,000 Hours Life

FEATURES:

- Full color function display with 4 buttons
- Fast, precise, pan & tilt movements
- Three zone DMX control mode with macros
- Primary / Secondary stand-alone mode
- Motorized Zoom: 6 to 50°
- Linear White Color Temperature DMX control channel: 3200K-10000K
- Up to 18 Strobe flashes per second

CONSTRUCTION:

- DMX Data In/Out: 3-pin XLR
- Power In: Blue Locking indoor power connection
- Power Out: White Locking indoor power connection

CONTROL:

- 2 DMX channel modes: 13 & 23 channels
- Protocols: DMX-512, Auto and Sound control modes
- With Wired Digital Communication Network

PAN/TILT:

- Pan/Tilt: 540-degrees / 210-degrees
- 16-bit Fine Pan
- 16-bit Fine Tilt

ELECTRICAL:

- Multi-voltage operation: 100-240V, 50/60Hz
- Maximum power draw: 300W
- Power daisy chain: 2 units @120V, 3 units @230V
- On/Off switch

DIMENSIONS/WEIGHT:

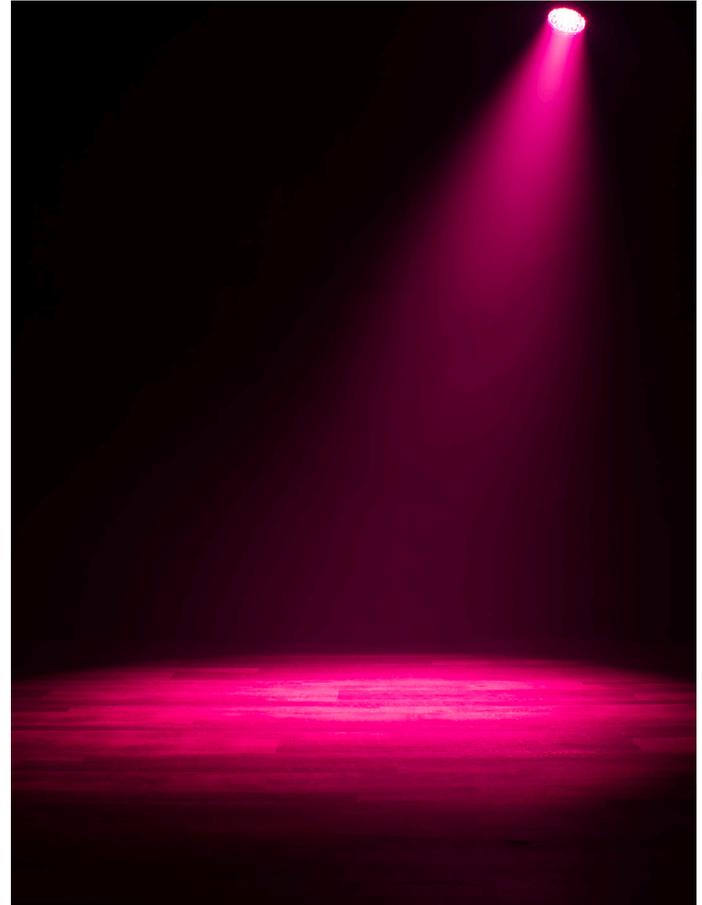

- Dimensions (LxWxH): 7.41" x 12.8" x 15.6" / 188x325x396mm
- Weight: 21.4 lbs. / 9.7 kg.

APPROVALS:

- CE | IP20

WHAT'S INCLUDED:

- Locking power cord
- Omega bracket
