

Flat par featuring 12 x 18W RGBWA+UV 6-in-1 LEDs for rich, vibrant color mixing, smooth wash output, and stunning ultraviolet effects - versatile flat par is perfect for DJs, stages, venues, and event lighting professionals.

The Eliminator Lighting LP Hex 12 Plus flat par is a powerful and flexible wash fixture designed for professional lighting environments. Outfitted with 12 x 18W RGBWA+UV 6-in-1 LEDs, it delivers an extended color spectrum, including warm ambers, clean whites, deep reds, and exciting UV effects. Its pure color output, excellent blending, and smooth wash coverage make it ideal for stage lighting, uplighting, dance floors, and installation work.

Offering both 6-channel and 10-channel DMX modes, the LP Hex 12 Plus allows users to choose between simple operation and advanced programming control. Precision tools such as white balance adjustment and color cast correction help maintain accurate color output, while built-in temperature protection ensures safe, reliable operation during long events.

This flat par supports DMX512, Primary-Secondary operation, Auto Run, and Sound Active modes, providing flexibility for any lighting setup, from fully programmed shows to quick plug-and-play situations. Its 0–100% linear dimming ensures smooth fades, and the high-speed synchronous strobe adds sharp, energetic visual effects.

Compact and lightweight, LP HEX 12 Plus is easy to transport, mount, and integrate into tight spaces. Operating at 110W and rated IP20 for indoor use, it delivers reliable, professional-grade performance for mobile entertainers, clubs, production companies, and permanent installations.
