

Powerful RGBW output, motorized zoom, and flexible control make the Mega Par Z Wash a versatile lighting solution for dynamic stages, dance floors, and events.

The Eliminator Lighting Mega Par Z Wash is a powerful and versatile LED wash fixture built for entertainment environments that demand strong output, smooth color performance, and precise control. Equipped with nineteen 15-Watt high-output RGBW LEDs and long-life light sources, it delivers rich, vibrant colors, excellent color mixing, and uniform wash coverage—ideal for stages, dance floors, architectural uplighting, and full-room illumination.

A standout feature is its motorized zoom (10 to 60-degree), which electronically adjusts the beam from a tight, focused look to a wide, even wash. This flexibility allows the Mega Par Z Wash to shift easily between punchy beam effects and broad coverage, adapting quickly to different lighting needs. Smooth linear dimming supports clean fades and professional transitions for dynamic lighting cues.

Control options are flexible and easy to use, supporting DMX, Primary/Secondary linking, Auto programs, Sound Active mode, and Static operation. Three zones of Circle Control enable creative visual effects, while multiple DMX channel modes allow either quick setup or detailed programming. A clear LED display makes onboard configuration fast and intuitive.

Designed for efficient operation and reliable indoor use, the Mega Par Z Wash is well suited for mobile setups and permanent installations alike. Combining strong output, adaptable zoom, and versatile control, it's an excellent solution for DJs, venues, productions, and lighting professionals seeking a dynamic LED wash fixture with added creative flexibility.

SPECIFICATIONS:

- Light Source: 19 x 15W RGBW 4-in-1 LEDs (50,000 hours)
- Light Effect: Pure color, excellent color mixing, smooth wash output
- Control Modes: DMX512, Primary-Secondary, Auto/Self-walking, Sound Active, Static Mode, 3-Zone Circle Control
- DMX Channels: 10 / 18
- Dimmer: 0–100% linear dimming
- Electronic Focus and Zoom: 10°–60°
- Display: LED display
- Locking Power In/Out Sockets
- 3-pin DMX In/Out
- Voltage: AC100–240V, 50/60Hz
- Power Consumption: 200W
- Product Size: 8.86" x 11.02" x 13.19"
