American Audio

TT-RECORD

Upgrade Instructions for 192KBPS

Please follow these instructions to upgrade your American Audio TT Record to rip MP3 files at 192 kbps:

1. After you downloaded the update file from our website, www.americanaudio.eu , load the file "TTRECORD-192.MCS" onto a clean USB Flash drive or SD Card. (nothing else should be on the drive)
2. Turn your TT Record on.
3. Insert flash drive into the USB port; red USB light will come on.
4. Press the Record Button on the turntable – Red record LED will flash on and off.
5. The upgrade is finished when the red record LED stops flashing and stays on.
6. Unplug the USB device and power off the turntable.
7. Insert the USB flash drive or SD Card back onto your computer and erase the "TTRECORD-192.MCS" file, so the drive is completely clean. **!!!Please note this important step or your upgrade will not work!!!**
8. Power on the TT Record and begin recording!

Customer Support (EU):
AMERICAN AUDIO provides a customer support hotline, to offer set up help and answer any question should you encounter problems during your initial set up or operation. You may also visit us in the web at www.americanaudio.eu for any comments or suggestions. Service hours are Monday through Friday 8:30 to 17:00h.
